Engage Your Givers with Vision2

The generosity landscape has changed.

Many nonprofit organizations and churches are receiving a smaller share of overall generosity and struggling to support their missions. Understanding and addressing these trends is no longer an option, but what is the answer?

Demonstrating impact.

Attracting and retaining today's donors requires conveying the impact of their gifts. This is especially true for younger generations whose generosity isn't motivated by a traditional sense of obligation but rather a desire to make change and see the impact they made. Supporting this desire requires more than presenting donors with a "payment" form to collect their gifts.

Media-rich giving experiences convey the impact your donors want to see.

Through flexible content and multi-media capabilities, share the fund and campaign stories and include imagery that evokes emotional engagement with the goal. Donor-specific acknowledgments allow you to address givers where they are in their giving journey, encouraging future generosity.

Vision2 is more than software. We are your partner.

In addition to supporting your donors, Vision2's comprehensive giving software also provides unparalleled efficiency for your support staff and enables leadership with analytics data and reporting tools, making it an extension of your team throughout our partnership.

TESTIMONIAL

DREAM DC CENTERS

"Thank you so much for making our donors giving experience exponentially better than it used to be. The fewer clicks, the lay-out, forms, language and graphics make it a much more pleasant giving experience. A WIN!"
